Social distancing involves avoiding social gatherings, group events, public places, and crowds, even if you feel healthy.

Consider avoiding these activities:
- Group gatherings > 10 people
- Visitors in your house
- Sleep overs
- Play dates/playgrounds
- Malls
- Concerts
- Mass transit
- Theaters
- Gyms
- Athletic Events
- Crowded stores and restaurants
- Non-essential medical appointments
- Non-essential workers in your house

COVID-19 can spread through respiratory droplets in the air and can live for hours on surfaces. The above activities are just some of the ways people can unknowingly spread the virus to others.

Try these safer activities:
- Take a walk outside
- Clean your home
- Family game night
- Go for a hike
- Read
- Go for a drive
- Yard work
- Listen to music
- Video chat
- Play in your yard
- Cook a meal
- Stream a show

Please exercise your own judgment and adhere to all federal, state, and local government guidance when practicing social distancing. **Remember:** Wear a cloth face covering and maintain at least six feet of distance at any indoor or outdoor gathering with people who live outside your home. This is especially important when indoors.
