

Adding a Base Camp Assessment (BCA) to DOEHRs

[1] DOEHRs does not have a BCA survey module. An autoscored BCA form (.pdf) can be found here: https://phc.amedd.army.mil/topics/envirohealth/hrasm/Pages/DOEHRs_Resources.aspx

HEALTH RISK ASSESSMENT, SURVEILLANCE & MANAGEMENT
Defense Occupational and Environmental Health Readiness System (DOEHRs) Resources

DOEHRs is a Defense Health Agency (DHA) system managed by the Defense Health Services Systems (DHSS) for entering, assessing, managing and reporting occupational and environmental exposures. DOEHRs consists of multiple business areas: industrial hygiene (IH), environmental health (EH), radiation (RAD) and incident reporting (IR). It is used for both garrison and deployed operations, is mandated by various DoD policies and public laws and is the system of record for the DoD individual longitudinal exposure record.

The DOEHRs website is located here: <https://doehrs-ih.csd.disa.mil/Doehrs/>

The DOEHRs website used for Demonstration and Training* is located here: <https://doehrs-ih-demo.csd.disa.mil/Doehrs/>
